

Updating a TAMUQ laptop to Microsoft Office 2007

Following are the steps to install Microsoft Office 2007 on a TAMUQ laptop.

1. Connect your laptop to the TAMUQ network with a network cable
2. Establish a VPN connection to Tamu-Qatar-VPN:
Go to Start→Connect to→TAMU-Qatar-VPN (see Figure 1)

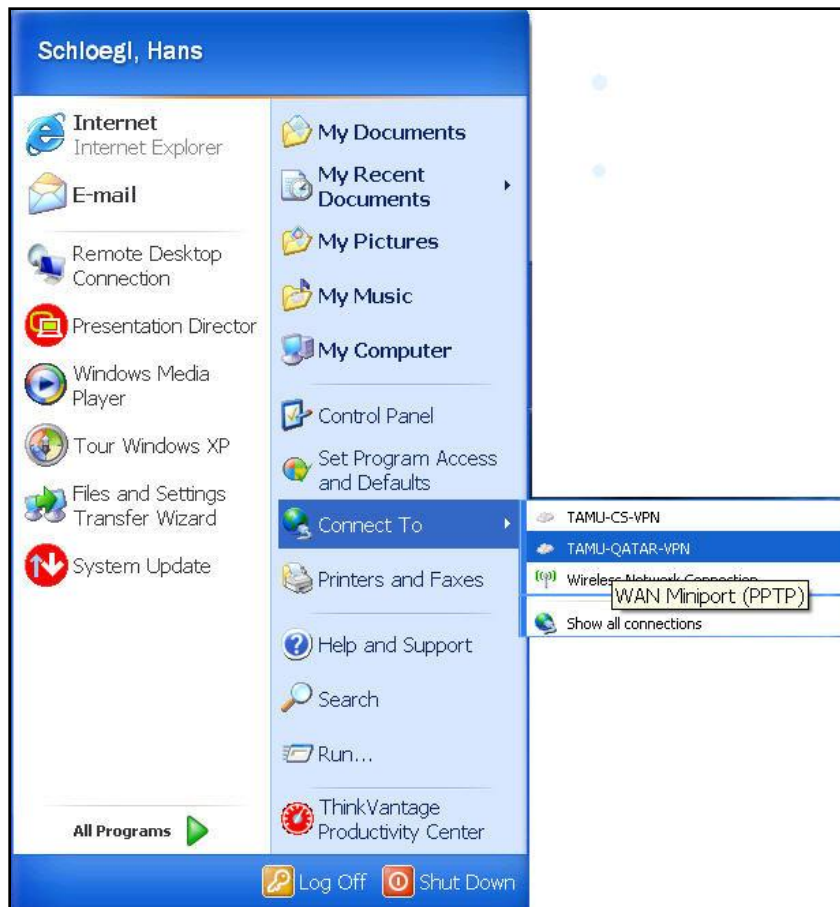

Figure 1

3. Enter your TAMUQ credentials as shown in Figure 2 and click connect.

Figure 2

4. Click on the link to start the installation:
[\\tamuq-nas1.qatar.tamu.edu\EDS\\$\Information Technology Services\Software\Off2007Ent\setup.exe](\\tamuq-nas1.qatar.tamu.edu\EDS$\Information Technology Services\Software\Off2007Ent\setup.exe)
5. The installation progress window will appear (Figure 3):

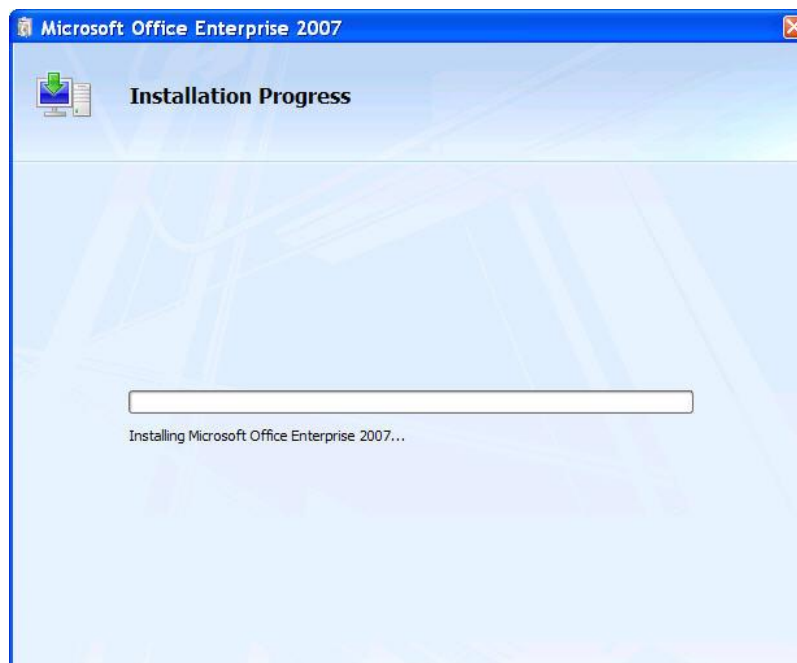

Figure 3

6. Wait until the installation is complete, which is indicated by the window shown in Figure 4.

Figure 4

7. Click on Close and restart your computer

Microsoft Office 2007 is now installed on your laptop und you can find the applications in Start → All Programs → Microsoft Office
