

Creating a VPN Connection from Qatar to College Station

To create a VPN connection from Qatar to College Station, follow the steps listed below.

1. Click on the **Start** button in the lower left-hand corner of your screen and select **Control Panel**.
2. Under Network Tasks, located on the left-hand side of the window, click on **Create a New Connection**.
3. The New Connection Wizard screen appears. Click on **Next**.
4. From the Network Connection Type (What do you want to do?) screen, select **Connect to the network at my workplace** and click on **Next**.
5. The next screen will ask “How do you want to connect to the network at your workplace? Select **Virtual Private Network connection** and click on **Next**.
6. The next screen will ask you to specify a name for this connection to your workplace. For College Station, type in **TAMU-CS-VPN** and click on **Next**.
7. From the Public Network screen, select the option Automatically dial this initial connection. TAMUQ-QATAR-VPN will appear in the line below this. Click on **Next**.
8. The next screen will ask What is the name or address of the VPN server? Under Host name type in **VPN-master.tamu.edu** and click on **Next**.
9. On the next screen you can make the connection available to any user or only to yourself. Select **Anyone’s use** and click on **Next**.
10. From the Completing the New Connection Wizard screen, click on **Finish**.
